Attached is the revised final redline draft; however, I have one outstanding issue that I could not clearly decipher. Please let me know your thoughts.

Ms. Prescott-Tate has made the following suggested edit:

Page 3

Under II C: middle of the page, the citation to "H.R.S. §149A-26 (Supp. 2018)", add a space between "§" and "149A-26" so it reads "H.R.S. § 149A-26 (Supp. 2018)"

Move foot note 7 up to the end of the above referenced citation ("H.R.S. § 149A-26 (Supp. 2018)"). The link for foot note 7 is to the entire section 149A-26. In the foot note where it is now only subsection (b) is referenced.

Does she really mean to move the location of FN 7 down after the H.R.S. §149A-26 (Supp. 2018)?

I will develop the clean copy once clarity on this single issue is provided.

Thanks in advance.
